Introduction.....	1
Background and Staff Analysis	1
Recommendations.....	1

Introduction:

On May 24, 2002, Enron Energy Services, Inc. ("EES") filed with the Commission a letter requesting cancellation of its Certificate of Convenience and Necessity ("CC&N").

Background and Staff Analysis:

EES was approved to offer competitive retail electric services in Arizona as an Electric Service Provider on August 5, 1999, in Decision No. 61873. EES has indicated that it has not provided competitive electric retail services in the state of Arizona and does not plan on offering retail services to Arizona customers in the future.

Since EES has never provided retail services to Arizona customers, and does not plan to offer such services in the future, Staff believes that granting this application for cancellation of a CC&N is in the public interest.

Recommendations:

Staff recommends cancellation of EES's CC&N.

Staff further recommends that the application be approved without a hearing.
